Education

VIT Bhopal University, Bhopal

B.Tech in Computer Science and Engineering

November 2024 – Present

CGPA: 9.32 / 10.0

St. John's Co-Ed School, Prayagraj & SARJ School, Prayagraj

ICSE Class 10th: 92% and CBSE Class 12th: First Division with Distinction

2020 & 2022

Technical Skills

Languages: C++, Java, Python, Kotlin

Mobile Development: Android, Jetpack Compose, Room Database, Firebase

Backend & APIs: REST APIs, JSON, Retrofit

Databases: MySQL, Room Database(SQLite), Firestore, Firebase Realtime Database

Version Control/Developer Tools: Git, GitHub, Android Studio, VS Code, Google Play Console

Projects

Zenith — Focus & Productivity App (2026) | Kotlin, Jetpack Compose, Room, Hilt, Firebase

[GitHub](#)

- Built a dark-themed focus tracker using **Clean Architecture (MVVM)**, **Jetpack Compose**, **Hilt**, and **StateFlow**.
- Implemented **Room Database** with schema migrations and **DataStore** to generate **3-tab productivity analytics** (Daily/Weekly/Monthly) and GitHub-style activity heatmaps.
- Added **Canvas animations**, **Focus Mode**, **Foreground Services**, and real-time **Firebase Firestore leaderboards**.

Weather App (2025) | Kotlin, Jetpack Compose, OpenWeather API

[GitHub](#)

- Integrated **REST APIs** (OpenWeather API) using **Retrofit** to fetch live weather data.
- Implemented **location-based search** and dynamic UI updates.
- Added error handling and offline caching for better user experience.

Shop – E-Com App (2026) | Kotlin, Jetpack Compose, MVVM, Firebase, Razorpay

[GitHub](#)

- Developed a native Android e-commerce app with **authentication**, **product catalog**, **cart**, and **wishlist**.
- Implemented **Firebase Firestore** for real-time synchronization and **SharedPreferences** for offline persistence.
- Integrated **Razorpay** Payment Gateway using MVVM, Jetpack Compose, and Kotlin Coroutines.

Rakshak — Women Safety App (2026) | Kotlin, Jetpack Compose

[GitHub](#)

- Built an offline-first safety app with **one-tap SOS** sending SMS + live location.
- Implemented voice trigger ("Help Rakshak") and volume key SOS using **SpeechRecognizer & AccessibilityService**.
- Designed home screen widget for instant emergency access.
- Integrated **FusedLocationProviderClient** for accurate GPS tracking with fallback handling.
- Ensured Android 14 foreground service compliance and reliable background execution.

Leadership & Experience

Co-Lead — Android Department | Android Club VIT Bhopal University

2025 – Present

- **Co-led the Android Department**, driving technical initiatives, project development, and peer-learning activities.
- Built apps and mentored members using **Kotlin**, **Jetpack Compose**, **MVVM architecture**, **Coroutines**, and **Room Database**, ensuring clean, scalable, and maintainable code.
- Guided development of Android applications including **Chatroom**, **Weather**, **Shopping List**, and **Task Reminder** apps.
- Conducted **code reviews**, **debugging sessions**, and **technical workshops**, promoting clean architecture and Git/GitHub best practices.
- Collaborated on **architecture design**, **API integration**, **Firebase real-time features**, and **project planning**.

Extracurriculars

- Ranked among the **Top 20** teams in the **Dawn of Code Hackathon** by VIT Bhopal.
- Solved over **300+ DSA** problems combined on other platforms like **LeetCode**, **CodeChef**, **Codeforces** and **Geeks for Geeks**
- Shortlisted in **Smart India Hackathon** after clearing internal hackathon (Top **45** out of **950** teams)
